

This 7 Series model fits a 1 US quart factory packed round container and comprises the following parts:

- 36 inch blue conductive polyurethane/polyester hose
- Aeroquip 320516-4 coupling (equivalent to KHC-1014)
- 1699 dust cap (3209-4)
- 1600/S filter element (2 micron beta 200 absolute)
- Stability base
- 'HYJET 4 HYDRAULIC-ESTER' fluid identification plate

(Assembly shown with packing tube in place of oil can)

The special 2 micron (Beta 200 rated) filter elements fitted to Risbridger equipment dispense filtered fluids to a cleanliness level of DefStan O5/42 (better than 400F or ISO 4406 Class 11/7)

Improve reliability and service life of your aircraft engines and components. Using our quick disconnect couplings and high level filtration you will protect the fluid

- Cans of oil are fitted to the pump before opening, preventing contamination of contents
- Integral can opener and suction pipe
- Available for many fluid/aircraft/system types
- Integral 'No Filter - No Flow' safety valve
- Stability base prevents toggle straps collapsing the can and improves sealing

Applicable to the following aircraft models:

Airbus A300, A310, A320, A330, A340, A350 and A380.

Bombardier Dash 7 100 and 150.

Materials:

Anodised aluminium
Acetal-homopolymer
Zinc plated steel
Stainless steel
Brass

Suitable for:

Phosphate Ester oils
(blue conductive
polyester/polyurethane hoses)

Document Ref:

DATA-7179-160106
