

1473 Swing Arm Assembly

Installers must supply:

- Yard arm - max 13' long
- Elbow
- Hose and nozzle

Swing arm shown on packing board ready for shipping.

Originally designed to allow the petrol hose and nozzle to be swung across the pavement to waiting vehicles, this product still proves to be popular.

For use on non-retail installations only.

1473 Swing Arm Assembly comprises:

- 1" BSP swivel joint assembly - to be fixed to the wall
- 1" BSP back stay - 2'6" long
- Sliding top bracket - to fix back stay to wall
- Stainless steel cables and clips - to support yard arm

Materials:

Mild Steel
Stainless Steel

Suitable for:

Non-retail sites
